SIR,

109 Ss. 3,4,7+8 B.+S

With reference to G. O. No. D. 6456-7/I & C 107-32-8 dated the 16th June 1933, sanctioning the fencing and pipe connection to the Dye Shed of the Badanval Spinning Centre at Nanjangud at a cost of Rs 180 and Rs 500/- respectively and G. O. No. D. 2261-62/I & C 106-33-2 dated the 14th Novr. 1933 sanctioning the pur-chase and erection of a Gigger at the Dyeshed at a cost of Rs 650/-, I have the honor to furnish a statement showing the actual expenditure incurred under each of the above items of work as reported by the Manager, Badanval Spinning Centre. (Statement enclosed)

The excess under 'fencing' which amounts to only Rs 1-4-0 calls for no remarks. In regard to the excess expenditure of Rs 29-8-6 incurred under "pipe connection", the Manager explains that this is due to the construction of a Washing Platform and of a Cement Water tank necessitated by the Gigger and of drains not provided for in the original items but found to be necessary in the course of the execution of the work.

The expenditure on account of the erection of the "Gigger" amounts to only Rs 563-8-6 as against the allotment of Rs 650/- sanctioned for it and this has resulted in the savings of Rs 86-7-6. The Manager reports that in addition to the above items of work, he had to incur an expenditure of Rs 20-8-3 during 1933 for the construction of smoke chimneys and three ordinary hearths used for Dyeing in the Dye Shed. He also reports that at the time of the visit of the Dewan during August 1934, a causeway over the open drain with parapet walls had to be constructed in front of the premises of the Dyeshed at Nanjangud at a cost of Rs 16/-. He proposes that the excess expenditure of Rs 30-12-6 (Rs 1-4-0 plus Rs 29-8-6) under "Fencing and Pipe Connection" as also the addition-al expenditure on account of the construction of smoke chimneys and hearths and causeway together amounting to Rs 36-8-3 (Rs 20-8-3 plus Rs 16/-) may be set off against the savings of Rs 86-7-6 resulting under "Gigger". These items of expenditure may be sanctioned.

After making these above adjustments, there will still be a balance of Rs 19-2-9 left in the savings. The Manager requests sanction to utilise this amount for drying equipment by fixing up vertical posts and horizontal reepers. This will constitute an improvement in the method of drying yarn and cloth over the present method of spreading them on bare ground. This equipment is necessary in the interests of work. The proposals of the Manager involve no additional grant and I therefore recommend that it may
